ASPS PLASTIC SURGERY CODING WORKSHOP 2018

The ASPS Plastic Surgery Coding Workshops offer a comprehensive learning program designed by the American Society of Plastic Surgeons® (ASPS®) to improve the profitability of your practice.

TOPICS COVERED IN THE WORKSHOP

- Breast reconstruction -- skin replacement surgery, including skin substitutes and biologic implants, and pre-pectoral implants
- Lesions, lumps, bumps, and flaps
- Adjacent tissue transfers
- Traumatic wound care, repair and debridement
- Burn care
- Chronic wound care and pressure ulcers
- Reconstructive vs. cosmetic surgery – body contouring, nasal procedures, etc.
- Hand surgery
- Microsurgery and use of the operating microscope
- Craniofacial services and facial fractures
- Use of modifiers – including changes to modifier 59 reporting
- Evaluation and Management coding review
- Practice management essentials

A hand holding a pen is positioned over a clipboard with a medical form. The form is a standard medical history and insurance information form, likely a CMS-1500 form. The visible sections include:

- 1. MEDICARE (Medicare) / MEDICAID (Medicaid) / TRICARE (TRICARE) / CHAMPVA (Member ID#) / OTHER HEALTH PLAN (ID#)

• Peer-Reviewed Coding Standards

Coding Workshops combine the knowledge of our member surgeons, medical directors, veteran professional coders and the ASPS Coding and Payment Policy Committee. The uniquely interactive, comprehensive course focuses on the broad issues of practice management and reimbursement and delves into case-based instruction of the new Coding standards.

• Regulatory Representation for Accurate and Ethical Coding

The American Society of Plastic Surgeons has both staff and physician representation at the American Medical Association meetings, allowing ASPS to communicate the Society's position to regulatory bodies as coding policy is created and updated.

• Building Upon Our 85-Year History of the Specialty

ASPS is the largest plastic surgery specialty organization in the world. It is a society created by plastic surgeons for plastic surgeons with an emphasis on advancing the quality of care provided to patients. Our intention is to promote high standards of training, ethics, education, and research to practicing surgeons and their staff.

The Dollars and Sense of Attending a Workshop

Participating in the workshop can be a profitable experience **and save you time in the long run**. Some of the many take-aways include:

- Review of the requirements to prevent payment denials
- Thorough coverage of practice management fundamentals and evaluation and management

- Panel-led discussion of complex coding questions
- Opportunity to query members of both the ASPS Coding and Payment Policy Committee and the AMA's RUC Committee
- Reference manual, interactive coding case examples, skills assessments and support

The image shows a portion of a red-bordered medical form titled "PATIENT AND INSURED INFORMATION". The form contains several numbered sections:

- 1. INSURED'S I.D. NUMBER** (For Program in Item 1)
- 2. INSURED'S NAME** (Last Name, First Name, Middle Initial)
