Important Information for Web-Based Examination Process
ASPS is required to set a minimum performance level for activities such as the In-Service Exam and L3E: Aesthetic In-Service, and may only award AMA PRA Category 1 Credits™ to those learners who meet the minimum performance level. Credits are based on the estimated completion and review time for the examination process and the achievement of a minimum performance level. To receive AMA PRA Category 1 Credits™, your exam must be submitted by 11:59 p.m. local time, on the close date of each of the ISE exams.
The minimum performance level has been set at 30 percent (this will apply to each module of the ISE completed). The learners who do not meet the 30 percent minimum score will be given an opportunity to participate in an additional attempt immediately following the initial completion of the exam.

Standard Testing Requirements
The ASPS Education Network (EdNet) fully supports the web browsers IE 10+ and the two most recent public versions of Chrome, FireFox and Safari. Supported operating systems include MacOS, Windows, iOS and Android. There are no required downloads or third-party applications required by the learners.

2021
The Ultimate Test of Your Plastic Surgery Knowledge

I SE Surgeons Exam Window: April 14 through June 9, 2021

The ultimate test for plastic surgeons, the ASPS In-Service Exam is designed to evaluate your knowledge of the most up-to-date, challenging and comprehensive content developed by experts of the specialty. Your results will give you a clear picture of your strengths and weaknesses and identify areas in need of further study. Best of all, the online exam may be taken at your own pace in the comfort of your home or office.

OVERALL LEARNING OBJECTIVES

At the conclusion of this activity the participants will be able to:

- Identify the most up-to-date information on the core curriculum of plastic surgery
- Self-assess basic knowledge of the five clinical component areas
- Establish a benchmark for areas of focus needing further concentrated educational efforts
- Attend appropriate educational activities based upon self-assessment evaluation
