Although telemedicine use has grown exponentially during the COVID-19 pandemic, many ambulatory providers still lack the knowledge and skills needed to implement video-based telemedicine into their practices. To support wide adoption of telemedicine, the U.S. Department of Health and Human Services (HHS), Assistant Secretary for Preparedness and Response is partnering with the ECHO Institute at the University of New Mexico and the Public Health Foundation's TRAIN Learning Network to deliver a 10-week, virtual peer-to-peer learning community called Telemedicine Hack.

Key components of Telemedicine Hack include:

- ◆ **Five teleECHO sessions** on key topics (e.g., workflows, documentation, reimbursement) highlighting best practices and case studies from the field
- ◆ **Five virtual “office hour” discussion panels** with case presenters, government agencies, topical experts, and stakeholder associations responding to your questions
- ◆ Inter-session peer-to-peer learning facilitated via **virtual discussion boards** and ad hoc interest groups
- ◆ CME/CEU credits are available for attending, at no cost to participants

For more information, contact c19ECHO@salud.unm.edu

There is no cost to join the Telemedicine Hack initiative. All ambulatory providers (e.g., primary care, surgical, rural/urban, dental, mental health, solo practitioners) are invited to participate.

HHS Telemedicine Hack Curriculum

Wednesdays, July 22-Sept 23, 2020
12:00-1:00pm ET

Date	Topic
July 22	Telemedicine: Where Do I Start?
July 29	Office Hours #1
August 5	Workflows and Documentation
August 12	Office Hours #2
August 19	Billing and Reimbursement: How to Ensure Compliance (& Get Paid!)
August 26	Office Hours #3
September 2	Clinical Best Practices and the Art of the Tele-Physical Exam
September 9	Office Hours #4
September 16	The New Normal: Tips to Make Telemedicine Part of Your Permanent Practice
September 23	Office Hours #5
