

Med Spa

PATIENT CHECK LIST

- ☐ Is the supervising physician on site or able to be on site within 24 hours?
- ☐ Is the medical spa owned by a physician (ideally a plastic surgeon or dermatologist)?
- ☐ Is the physician owner and any supervising physician board-certified? Are they licensed in the state of the med spa?
- ☐ Who will be performing my procedure? What is their training specific to this procedure? How many years of experience do they have?
- ☐ What does the procedure involve? Does it require more than minimal sedation or local anesthesia? (If so, it is probably not appropriate for a med spa)
- ☐ Will there be any pain or downtime?
- ☐ Is the med spa equipped to handle medical complications? What complications should I watch out for?
- ☐ Are all the products and devices FDA-approved?
